25X1  
MEMORANDUM FOR:

[redacted]  
Deputy to the DCI for  
National Intelligence

STAT  
VIA:

[redacted]  
Deputy to the DCI for  
Resource Management

FROM:

[redacted]  
Director, Office of Policy and Planning  
Resource Management Staff

STAT

SUBJECT: Request for NFAC Replacement

1. I have been informed that [redacted] lately  
of your NIO organization, has been reassigned to other duties.  
[redacted] has been an active and extremely helpful member  
of two Community working groups for which this office con-  
tinues to be responsible, and I wish to acknowledge the value  
of the contributions he has made as representative of the  
NIO and, later, NFAC organizations.

STAT

2. I also wish to express my hope that you will soon  
name a replacement representative (or representatives) to the  
Community groups concerned.

a. The first, the DCID 1/2 Ad Hoc Group, handles  
the coordinative aspects of the Attachment to DCID 1/2,  
including annual publication of the document and changes  
to priorities and other matters which occur between  
annual reviews. The NIO/NFAC liaison has been particu-  
larly important to the success of the concept which the  
DCID 1/2 Attachment promulgates, largely because it  
provides the most effective link between the Ad Hoc Group  
and substantive intelligence.

b. The second, the Intelligence Definitions Working  
Group, was formed last year by the NFIB when its member-  
ship became persuaded of the need for an authoritative  
and comprehensive glossary of intelligence terms. Here  
too, the NIO/NFAC member of this working group has been  
an especially helpful spokesman for the function of  
intelligence production, a key aspect of the definitions  
project.

SUBJECT: Request for NFAC Replacement

3. Please ask your new representative(s) to contact  
[redacted] Executive  
Secretary of both groups, for update briefings and details  
of future activity. In the meantime, I hope you will pass  
my expression of personal high regard and gratitude to  
[redacted] for our past association, and all best wishes  
to him for the future.
